The Open House will include
an overview of our program,
how admissions work,
funding and awards
opportunities, and a chance
to talk to current
graduate students.

Changes are coming to the University of Toronto Psychology Graduate Program!

Beginning in 2021, students entering with a BA or BSc will be considered for admission to our new 5-year, direct entry PhD program. Students entering with a MA or MSc will be considered for admission to our 4-year PhD program.

<https://tinyurl.com/yy89ehup>

Our new 5-year direct entry PhD Program features:

UofT Psychology students can be supervised by faculty at any one of our three main campuses (St. George, Mississauga, or Scarborough), or at one of our many affiliated institutions.

We offer training in:

- ✔ Behavioural Neuroscience
- ✔ Developmental Psychology
- ✔ Perception, Cognition, and Cognitive Neuroscience
- ✔ Social and Personality Psychology

A 2-year Foundational Research Project to build the skills you'll need for your PhD project

A 1-year Outside Research Project to work with another faculty member and expand your skills and knowledge

Psychological science skills modules: half-term courses that focus on skills to further your research capacity (e.g., programming, advanced statistics, laboratory techniques). Students in the 4-year PhD can also take these modules.

"The PhD program has given me connections with some of the best scientific minds in the world. I highly value the encouragement to work on projects outside my main focus."
- Trenton Johannis, PhD2, DEV/PCCN, UTSC
BSc, McMaster University

"UofT, and UTM especially, has generous support for psychology graduate students in the form of travel and internal awards every year, which has allowed me to attend international conferences and career development opportunities regularly throughout my degree."
- Erinn Acland, PhD5, DEV, UTM
BA, McGill University

"I value the level of high caliber research that members of the department conduct. I also appreciate that the outside project fosters collaborations with other faculty members early on in the program."
- Veronica Bergstrom, PhD3, SP, STG
BSc, University of Alberta

"Over the course of my PhD, I have admired the Psychology department's willingness to meet the needs of its graduate students. The department offers a variety of resources to prepare its students for a career path in and beyond academia."
- Rayane Tabbara, PhD6, BN, CAMH
BSc, Concordia University

"The collaborative environment created by the RRI and UofT Psychology program has provided a diverse range of research opportunities and continues to support my academic and professional development."
- Prateek Dhamija, PhD3, PCCN, RRI
MSc, Queen's University
