Course Description:
This third-year undergraduate course primarily involves reading and discussion of seminal articles on the psychology of morality. The instructor will also deliver a short lecture at the start of each session. A key emphasis of the course will be on identifying specific psychological processes that lead people (a) to adopt the moral positions they do, (b) to translate their moral positions into action, and (c) to communicate their moral positions to others. Students will read seminal articles from a range of disciplines, including social psychology, cognitive neuroscience, animal behavior, philosophy, and evolutionary psychology. Students will gain: (a) thorough background knowledge on the main issues and debates in the field and (b) critical reading and writing skills necessary for understanding and communicating complex ideas.

Course Format and Requirements:
Grades will be based on the following components:
1. Reaction papers: 25%
2. Class participation (verbal): 20%
3. Assignment #1 Mid-term ‘long answer’ term test: 20%
4. Final Paper (Research Proposal): 35%

1. To foster thoughtful, exciting, and worthwhile discussion, students are asked to prepare reaction papers to the weekly readings. This request is designed to get students to think about the readings, while ensuring that everyone has something to contribute
during class discussion. Students have some freedom to decide how to complete this assignment. Spend some time highlighting the main points of the readings, but most of the paper should do other things: e.g., connect these main points, critique a study or its findings (or the authors’ interpretation of the findings), consider/discuss/develop new ideas, and/or propose a new study. The goal should be to demonstrate that you really understand the material. To this end, students are encouraged to bring in relevant material from other courses. Details are as follows:

- Papers should be **submitted to Packback before the start of class.**
- Papers should be 1-2 double-spaced pages (500 words max).
- Papers will be graded on a scale ranging from 1-30. Packback’s AI marks the grammar/structure/flow. I mark the content. See the Packback rubric.

2. The course will be structured as much as possible to foster high level, intellectual, respectful dialogue among the students on the foundational moral issues that come up in the readings. A significant portion of the course mark will be based on the instructor’s assessment of the quantity and quality of each student’s contribution to the discussions.

3. For Assignment #1, students will be asked to write in class a 2-3 ‘long answer’ responses to questions posed by the instructor. These questions will ask students to compare, contrast, and synthesize different theorists’ approaches to understanding a contemporary moral issue. Responses will be marked for correctness, clarity, and intellectual rigor.

4. For Assignment #2, students will write a 10-12 page literature review/research proposal. Students will propose new studies to test specific hypotheses that address a lacuna in the literature. The instructor will provide more specific instruction about the nature and format of this paper after the midpoint of the semester.

Missed Test Policy:
If you miss the mid-term test, you must declare your absence on ACORN within one week. You must also email me and the TA to schedule a time/place to take the makeup.

Writing:
As a student at the University of Toronto, you are expected to write well. The university provides its students with a number of resources to help them achieve this. For more information on campus writing centres and writing courses, please visit http://www.writing.utoronto.ca/.
**Academic Integrity and Plagiarism:**
Academic integrity is essential to the pursuit of learning and scholarship in a university, and to ensuring that a degree from the University of Toronto is a strong signal of each student’s individual academic achievement. As a result, the University treats cases of cheating and plagiarism very seriously. The University of Toronto’s Code of Behaviour on Academic Matters (www.governingcouncil.utoronto.ca/policies/behaveac.htm) outlines the behaviours that constitute academic dishonesty and the processes for addressing academic offences.

All suspected cases of academic dishonesty will be investigated following procedures outlined in the Code of Behaviour on Academic Matters. If you have questions or concerns about what constitutes appropriate academic behaviour or appropriate research and citation methods, you are expected to seek out additional information on academic integrity from your instructor or from other institutional resources (see www.utoronto.ca/academicintegrity/resourcesforstudents.html).
