

**Psychology 332: Organizational Behaviour**

**Section: LEC0101**

**Fall 2022**

University of Toronto, St. George

Tuesdays 2 pm – 5 pm

In Person @ Sidney Smith 1084

Live-streamed (and recorded) on Zoom @ <https://utoronto.zoom.us/j/87640372081>

Passcode: **psychology**

	Instructor	Teaching Assistants
Name:	Dr. William Ryan (Will)	Joe Hoang
E-mail:	ws.ryan@utoronto.ca	joe.hoang@mail.utoronto.ca
Office Hours:	<b>Online Office Hours:</b> To be held on <a href="#">Gathertown</a> Mondays 10- 11 am, Tuesdays 5-6 pm <b>In-Person Office Hours:</b> Tuesdays 12:30 -1:30 pm SS 4051	By Appointment

**Description, Goals, & Prerequisites**

**Course Overview:** This course aims to provide students with an overview of research and theory in the applied field of organizational psychology. The course targets those who want to understand psychology applied to the work setting at the individual, group, and organizational levels. Some of the specific topics we will address include: organizational culture, teamwork, leadership, occupational health and wellness, diversity, equity, and inclusion.

**Intended Learning Outcomes:**

By the end of this course you should be able to:

1. Develop an understanding of how people behave in teams and organizations.
2. Understand the basic concepts and foundational theories in organizational behaviour.
3. Learn how to evaluate research and theory on people, teams, and organizations.
4. Apply research and theory to develop your own professional skills

**Note about prerequisites:**

- **PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3**
- **AND** one of PSY220H1/PSY220H5/PSYB10H3/SOC213H1
- **OR** PSY230H1/PSY230H5/PSYB30H3
- **Exclusion:** IRE260H1/RSM260H1

It is your responsibility to ensure that you have met all prerequisites listed in the Psychology section of the A&S Calendar for this course. If you lack any prerequisites the department may cancel your registration at any time, so please double check that you have met the prerequisites!

## Land Acknowledgement & Statement of Equity, Diversity, and Inclusivity

I wish to acknowledge and honour the history of this land on which the University of Toronto operates. For thousands of years, it has been the traditional land of the Huron-Wendat, the Seneca, and the Mississaugas of the Credit. Today, this meeting place is still the home to many Indigenous people from across Turtle Island and we are grateful to have the opportunity to work on this land. [Learn more about the acknowledgement of traditional land in the University of Toronto.](#)

I am committed to creating a learning environment for my students, where your diverse perspectives and identities are respected and represented. I intend for this course to respect and promote diversity, equity, and human rights, so you will gain a more comprehensive understanding of psychology beyond historical biases. Your suggestions are encouraged and appreciated! Please let me know how I could improve the effectiveness, equity, inclusivity, and diversity of perspectives included in this course as well as the sense of belonging you and other students experience in the classroom. If you'd like to provide feedback anonymously, the weekly surveys are a great way to do that! You should, of course, also feel welcome to discuss any issues or concerns you have with me directly in-person, in office hours, over email, or by appointment. I am always open to and actively looking for ways to improve my courses and myself, especially in relation to principles of diversity, equity, and inclusion.

## Course Structure

This is an “in person” course and is listed on the course timetables as such. However, all lectures will ALSO be delivered online over Zoom (synchronously and recorded). What this means is that, if needed or desired, you can access and complete any or all components of this course remotely. This is to allow students maximum flexibility and opportunities for success in the course. That said, I encourage those who can, to join in person as there will be opportunities for discussion with both me (the professor) and your peers. If you are attending class in person, please follow the University's health and safety guidelines (whatever those are at the time) and consider wearing a mask even if not required. If you are feeling sick, please do NOT attend in person. Take care of yourself and your classmates by staying home! You can always join us live on Zoom if you are worried about missing out or you can take a nap and watch the recording later.

This syllabus describes the different ways that students can participate in the course. Please read this carefully and select the options that work best for you. To summarize, here is what a typical week in the course will look like:

### **Each week:**

#### *Required:*

- Attending Lecture
- 2 – 3 required readings and podcast
- Studying lecture and reading content
- Work on assignments-
  - Weeks 1-5: Self-Assessment, Job Analysis, & Resume Audit

- Weeks 6-12: KSA Research paper

*Optional:*

- Weekly anonymous survey to ask any questions, identify points of confusion, and provide feedback
- Exercises & Discussions (some weeks)
- Additional videos, readings, and podcasts will also be posted for students interested in learning more about various topics.
- Attending office hours

### Options for Accessing Lectures

Options for attending lecture include the following, each of which are detailed below.

1. Attending in person
2. Attending via zoom live
3. Watching the lecture recording

**Option 1. In-Person Lectures.** Lectures will take place in Sid Smith 1084 on **Tuesdays from 2-5 pm EST**. Please note that while I would love to see you in class, you do NOT have to attend in-person if you are not able or comfortable doing so for whatever reason. If this is the case, see the alternative options below.

**Option 2. Synchronous Remote Lectures.** All lectures can be attended remotely and synchronously over zoom. Students who cannot or do not wish to attend class in-person, but would still like to listen to and participate in lectures synchronously may do so. I will monitor the chat and answer questions. Students attending in-person are also welcome to log onto zoom and ask questions using the chat if you prefer that to asking out loud in-class.

The link for all lectures is: <https://utoronto.zoom.us/j/87640372081>

Passcode: **psychology**.

**Option 3. Lecture Recordings.** Students may also wish to listen to some lectures asynchronously due to different time zones, illness, scheduling concerns, or perhaps you missed something live and would like to listen again. All lectures will be recorded using Zoom and will be posted in the weekly Quercus page for that lecture shortly after the live lecture ends. Students are welcome to utilize this option, however, please note that it will not be possible to participate in the optional discussions when listening asynchronously.

**Note:** Students are welcome to use any of the above options to listen to and participate in lectures. Students may switch between options as they need or wish.

### Course Requirements & Marking Scheme

Your grade in this course will be based on your performance on two tests (a midterm and a final assessment), three assignments (a self-assessment, a job analysis and resume audit, and the KSA research paper), and optional weekly(ish) exercises. Details regarding each assignment are provided in the sections below.

Assessment	Weight	Due Date(s)
Discussion Groups & Exercises (optional)	8% (or 0%)	4% for group leadership, 4% for participation. Multiple dates (see course calendar)
Self-Assessment	1%	Sept 27 <sup>th</sup>
Job Analysis & Resume Audit	11%	Oct 11 <sup>th</sup>
Midterm Assessment	26% (or 30%)	Oct 25 <sup>th</sup> -27 <sup>th</sup>
KSA Research Paper	28%	Nov 29 <sup>th</sup>
Final Assessment	26% (or 30%)	9 am EST Dec 12 <sup>th</sup> – 11:59 pm EST Dec 14 <sup>th</sup>

\*For students who choose not to complete the exercises/discussions the midterm and final will be worth 30% each.

### Course Materials

**Required Readings:** Required readings consist of primary empirical and review articles as well as podcasts and popular press articles. These will be available on the course page on Quercus/Canvas under the “library course reserves” tab. The readings for the first few weeks will be posted directly to Quercus until the library website is up and running. There is no required textbook for this course.

#### Optional/Supplementary Textbook:

If you like using a textbook for reference, I recommend this one:

Johns, G., & Saks, A. M. (2020). *Organizational Behaviour: Understanding and Managing Life at Work* (11th ed.). Toronto: Pearson Education. (E-text Only)

**Course Website:** We will be using Quercus/Canvas (q.utoronto.ca) as a primary means of (1) accessing and submitting course assignments, (2) communicating announcements, and (3) posting/tracking grades. A current version of the syllabus and other relevant course resources will also be posted. Please make sure you check Quercus regularly for important announcements and course information.

**Lecture Slides:** Slides presented in lecture will be uploaded in PDF format to Quercus *just prior* to each lecture. The reason for not posting slides sooner is that I like to be able to update and edit the lectures right up until the time of that lecture.

### Asking Questions & Getting Help

There are several options for getting your questions answered. Students should feel free to use any of these options.

1. **Questions during lecture.** Students attending the lecture in person or synchronously over zoom will be able to ask questions throughout lecture.
2. **Online Office Hours.** Will be held on Gathertown (<https://gather.town/app/8ETR7Z5Iq4aUir6j/WillsOffice>) on **Mondays 3-4 pm & Tuesdays 12-1 pm EST**. On Gathertown we can meet one-on-one privately or in small groups if folks have similar questions.

3. **Weekly Survey.** For each lecture you have the opportunity to complete a short anonymous survey about that weeks' lecture and course content. Here you can indicate any questions or areas of confusion and Will/Dr. Ryan will address those in the next live lecture. This option may be particularly useful for students completing the course asynchronously or may be hesitant to ask questions in class. Links to weekly surveys can be found on Quercus on the weekly pages.
4. **General Discussion Board.** Students may also post questions on the general discussion board on Quercus. Will/Dr. Ryan will answer questions there and other students can provide answers if they have them as well. This is a great place to ask questions that you think other students may have as well.
5. **Emails & Individual Appointments.** Students are welcome also to email to Will/Dr. Ryan and/or the TA with questions. I will do my best to reply to all emails within 48 hours (if not sooner!). Before emailing, please check to make sure the information you are seeking is not already available on Quercus. Individual appointments with the professor and/or TA may be scheduled over email and held over zoom or in person as needed.

### Details on Assignments

**Exercises & Discussion (0% or 8%).** This *optional* weekly(ish) assignment is a chance for students to dig into Organizational Behaviour in more depth, discuss it with their classmates, and apply it to their own lives. If you chose to do these, they will count towards 8% of your overall grade (reducing the weight of your midterm and final by 4% each). To facilitate real-time engagement students will have the choice of being in a group that meets either in person or over zoom.

Those who chose to do these optional assignments will complete each short exercise on their own and then discuss with other students either in person during the last 30 minutes of class, or a synchronous zoom discussion group scheduled based on shared availability. In all cases individual exercises will be posted on Quercus and discussion questions will be provided by the instructor. Each student will be responsible for facilitating the discussion one week. Information about each student's preference and availability will be gathered via the Intake Poll during the first week of the course. Grades will be based on participation in the discussion and facilitation of that discussion on the week each student signs up for.

For this assignment to work, students must consistently engage in their discussion groups. Everyone who selects this assignment is free to miss one discussion, but if you think you will miss more than that (out of 5 total) then I don't recommend this optional assignment for you.

**Self-Assessment (1%). Due: Tuesday September 27<sup>th</sup> by 11:59 pm**

For this assignment you will complete a series of self-report measures of vocational interest, personality, and knowledge, skills, and abilities (KSAs). You will also ask another person who knows you well to provide observer ratings (i.e., they will rate you on these measures as well). You submit your scores on each measure via the google form link (posted on Quercus). All measures and information on how to calculate scores will be posted on Quercus and discussed in class. Will (Dr. Ryan) will then calculate class averages and distributions and discuss these

during class to unpack what these scores mean. This assignment will provide you with information that you will need for the Job Analysis & Resume Audit assignment and the KSA research paper (more info on both below).

**Job-Analysis & Resume Audit (11%). Due: Tuesday October 11<sup>th</sup> by 11:59 pm**

The goal of this assignment is for you to apply the technique of job analysis to better understand the requirements of a job that you might be interested in pursuing someday and the steps you would need to take to be qualified. In this assignment you will reflect on the results you obtained in the self-assessment assignment (above). You will consider whether these results fit with your career goals, identify a particular type of job you might be interested in pursuing and then perform a job analysis- identifying the key duties and components of that job as well as the skills, knowledge, and experience needed to perform it. You will then compare the results of the job analysis to your current skills and experience and perform a resume audit- identifying skills and experiences you have that meet those requirements as well as areas in which you still need to gain this experience or build new skills. Specific details will be discussed in class and posted on Quercus.

**Knowledge, Skills, & Abilities (KSAs) Research Paper (28%). Due: Tuesday November 29<sup>th</sup> by 11:59 pm**

The goal of this assignment is for students to delve deeper into research on organizational psychology. In this assignment you will review research and theory on one of the KSAs you learned about during the self-assignment (Leadership, Motivation, Emotional Intelligence, etc.) and its relation to individual and organizational performance. In this paper you will define this KSA and discuss how and why it contributes to success, the problems that can occur when this KSA is lacking, and how this KSA can be developed- both individually and at the organizational level. This is a 6-8 page (not including title page and references), double-spaced, APA-style paper. For this paper you will need to find at least 5 peer-reviewed sources (not covered in class) that address your topic (additional sources, including non-peer reviewed sources and sources from class are welcome).

### Midterm & Final Assessments

**Midterm & Final Assessments:** All assessments will consist of short answer questions and a short essay. These questions will ask you to think critically about course themes, connect topics in the course, and apply what you have learned to real-world situations. All assessments are “open book”, but not “open Google”, meaning that you can use course notes and articles when writing your responses, but should not be relying on other sources or Googling answers to questions. All writing **MUST** be in the student’s own words. See *Course Policies* section below for more on academic integrity. All assessments must be completed independently. You will be responsible for **ALL** material covered in both the lectures and the required readings, regardless of whether they overlap in content.

The **midterm assessment** will be posted at 9 am EST on Tuesday October 25<sup>th</sup> and can be submitted anytime until **11:59 pm EST on Thursday October 27<sup>th</sup>**. While you have almost 3 days to work on this, the assessment itself should take no more than 3 hours though you can spend as much or as little time working on it during the testing window. The midterm assessment

will include all material covered up until that point. More details to be posted on Quercus and discussed in class.

The **final assessment** will cover ALL course material. In other words, the final assessment IS cumulative, but with more questions focusing on the latter half of the course. The final assessment will take place during the Final Assessment Period. Like the midterm you will have an approximately 63-hour window to work on the assessment. The assessment will open at 9 am EST on Monday December 12<sup>th</sup> and must be submitted by **11:59 pm EST on Wednesday December 14<sup>th</sup>**.

Note that you will NOT need this whole time to work on these assessments as it should only take you a few hours to complete. The extra time is to allow you flexibility in scheduling your work and other responsibilities and to accommodate needs for extended time. Assessments MUST be turned in by the date and time noted above unless there is a verifiable emergency or other documented reason (see *Course Policies* section below). Late assessments will NOT be accepted. Although take-home, the midterm and final are exams and should be treated as such.

**Review Sessions:** We will hold Question & Answer review sessions prior to the midterm and final assessments, time and date TBA. These review sessions will be question and answer based so come prepared with questions to aid your studying. Sessions will be recorded for those who cannot attend. More details will be provided prior to each assessment.

### COVID-19 Contingency Planning

Given the global pandemic and the inherent uncertainties, I want to briefly address our back up plan for the course should the situation worsen and we are no longer able to meet in person. If this occurs, I will still deliver our lectures at the regular class time over zoom and provide options for students to attend synchronously or asynchronously. In-person discussion groups and would move to zoom. The plan for assignments, assessments, and online office hours, would remain the same as this can all be completed remotely.

### Course Policies

**Penalties for Late Assignments:** Assignments handed in late will incur a 5% deduction in points for EACH day that they are late. Midterm and final assessments will NOT be accepted late.

**The 48 Hour Late Ticket:** Each student gets one 48-hour late ticket good for (almost) any assignment\*. To use this late ticket, all you have to do is comment "Late ticket" in the comments box on your late submission. You do NOT need to seek permission to use your late ticket or let the TA or I know. We will keep track of who uses their late tickets on each assignment. Although Quercus may automatically flag your assignment as late (it doesn't know you are using your ticket), no points will be deducted and it will be treated as on time.

\*Note: This ticket may NOT be used for the midterms or final assessment or to skip acting as your group leader on the date you've signed up for.

**Missed Assessments:** As a rule, makeup assessments will not be issued except in cases of extenuating circumstances with appropriate documentation. If you miss the midterm assessment, you must submit documentation that demonstrates your inability to complete that assessment (i.e., the ACORN illness self-declaration tool) and let Will/Dr. Ryan know within 7 calendar days of the due date of the missed assessment. In these cases, the weight of the midterm assessment will be added to the final assessment. If you miss the final assessment, you must get in touch with Dr. Ryan (and potentially your College Registrar) as soon as possible to work out a plan.

**Grade Dispute Policy: The 24/14 Policy.** You must wait for at least 24 hours following the return of an assignment/assessment before bringing a grade concern to me; use this time to reflect upon your performance and grade. Additionally, grade concerns must be brought to my attention within 14 business days of the return of the assignment/assessment. Please write a short paragraph detailing your grade concern, including a copy, photo, or scan of the original assignment, if relevant, and email it to me. Grade disputes are not to be directed to your TA. Only reasonable and well-justified concerns will be considered, and all decisions are final. Note that in agreeing to resubmit your work for remarking, you are agreeing to a re-evaluation of the entirety of your work; your grade may go up, go down, or stay the same.

**Specific Medical Circumstances:** If you become ill and it affects your ability to do your academic work, consult me right away. Normally, would ask you for medical documentation in support of your specific medical circumstances. Given the pandemic circumstances, the ACORN self-declaration of illness tool (<https://www.artsci.utoronto.ca/news/message-dean-absence-declaration-tool>) and an email to let me know is sufficient.

**Religious Accommodation:** As a student at the University of Toronto, you are part of a diverse community that welcomes and includes students and faculty from a wide range of backgrounds, cultural traditions, and spiritual beliefs. I will make every reasonable effort to avoid scheduling, assessments, or other compulsory activities on religious holy days not captured by statutory holidays. Further to University Policy, if you cannot complete a component of the course or meet a course deadline due to a religious observance, please let me know as early in the course as possible, so that we can work together to make alternate arrangements.

**Accommodation for Personal Reasons:** There may be times (especially in 2021) when you are unable to complete course work on time due to non-medical reasons. If you have concerns about your ability to complete an assignment, please reach out to me (Will/Dr. Ryan). You do not need to tell me any details about your situation that you do not want to divulge, but I do need to know that there is an issue in order to support you. Indeed, I am here to support you can will make accommodations where reasonable, possible, and in fairness to other students. It may also be a good idea to speak with an advisor in your College Registrar's office; they can support you in requesting extensions or accommodations, and importantly, connect you with other resources on campus for help with many situations and concerns.

**Academic Integrity and Plagiarism:** Academic integrity is essential to the pursuit of learning and scholarship in a university, and to ensuring that a degree from the University of Toronto is a strong signal of each student's individual academic achievement. As a result, the University

treats cases of cheating and plagiarism very seriously. The University of Toronto's Code of Behaviour on Academic Matters ([www.governingcouncil.utoronto.ca/policies/behaveac.htm](http://www.governingcouncil.utoronto.ca/policies/behaveac.htm)) outlines the behaviours that constitute academic dishonesty and the processes for addressing academic offences. All suspected cases of academic dishonesty will be investigated following procedures outlined in the Code of Behaviour on Academic Matters. If you have questions or concerns about what constitutes appropriate academic behaviour or appropriate research and citation methods, you are expected to seek out additional information on academic integrity from your instructor or from other institutional resources (<https://www.artsci.utoronto.ca/current/academic-advising-and-support/student-academic-integrity>).

**Plagiarism Detection:** Normally, students will be required to submit their course essays to the University's plagiarism detection tool for a review of textual similarity and detection of possible plagiarism. In doing so, students will allow their essays to be included as source documents in the tool's reference database, where they will be used solely for the purpose of detecting plagiarism. The terms that apply to the University's use of this tool are described on the Centre for Teaching Support & Innovation website (<https://uoft.me/pdt-faq>).

Please note that I (Will/Dr. Ryan) understand that this is an imperfect tool and will always do additional investigation before interpreting a specific "plagiarism detection score". Sometimes the scores on this are inflated for reasons other than plagiarism and I will always take this into consideration and will never rely solely on this automatic analysis in registering an academic integrity concern. I am also aware that there are many ways to prevent these programs from detecting plagiarism, artificially reducing the score. Again, this is but one tool I use in assessing the originality of student writing.

**Lecture Slides & Recordings:** Students are free to use all lecture video, slides, and other materials for their own use. Students are, however, NOT permitted to share lecture slides or recordings with others not enrolled in this course. Uploading course materials to the web or shared server is expressly prohibited. Lectures are the intellectual property of the instructor, and the slides and recordings should be respected thus. Specifically, I do not want to discover that a student has put any of my materials into the public domain, has sold my materials, or has given my materials to a person or company that is using them to earn money (this is a real thing that has happened). The University will support me in asserting and pursuing my rights, and my copyrights, in such matters.

**Participation & Conduct in Class:** In our structured and unstructured discussions and dialogues, we will have many opportunities to explore challenging issues and increase our understandings of different perspectives. A positive learning environment relies upon creating an atmosphere where diverse perspectives can be expressed. Each student is encouraged to take an active part in class discussions and activities. Honest and respectful dialogue is expected. Disagreement and challenging of ideas in a supportive and sensitive manner is encouraged. Hostility and disrespectful behaviour is not acceptable. In the time we share together over this term, please honour the uniqueness of your fellow classmates and appreciate the opportunity we have to learn from each other. Please respect each others' opinions and refrain from personal attacks or demeaning comments of any kind. Just as we expect others to listen attentively to our

own views, we must reciprocate and listen to others when they speak, most especially when we disagree with them. In this class, our emphasis will be on engaging in the mutual exploration of issues as presented in the course readings as scholars, rather than in defending points of view we have formed outside the classroom.

**Harassment/Discrimination:** The University of Toronto is a richly diverse community and as such is committed to providing an environment free of any form of harassment, misconduct, or discrimination. In this course, I seek to foster a civil, respectful, and open-minded climate in which we can all work together to develop a better understanding of key questions and debates through meaningful dialogue. As such, I expect all involved with this course to refrain from actions or behaviours that intimidate, humiliate, or demean persons or groups or that undermine their security or self-esteem based on traits related to race, religion, ancestry, place of origin, colour, ethnic origin, citizenship, creed, sex, sexual orientation, gender identity, gender expression, age, marital status, family status, disability, receipt of public assistance or record of offences.

**For Students Taking This Course From Outside Canada.** If you are a citizen of another country, and/or accessing your courses at the University of Toronto from a jurisdiction outside of Canada, please note that you may be subject to the laws of the country in which you are residing, or any country of which you have citizenship. The University of Toronto has a long-established commitment to freedom of expression, with this right enabled by an environment valuing respect, diversity, and inclusion. In your classes, you may be assigned readings, or discuss topics that are against the law in other jurisdictions. I encourage you to become familiar with any local laws that may apply to you and any potential impact on you if course content and information could be considered illegal, controversial, or politically sensitive. If you have any concerns about these issues, please contact your instructor directly to discuss with them.

### Academic & Other Resources

**Accessibility Services (AS):** Students with diverse learning and needs are welcome in this course. If you have an ongoing disability issue or accommodation need, you should register with Accessibility Services (AS) (<http://accessibility.utoronto.ca>) at the beginning of the academic year. Without registration, you will not be able to verify your situation with your instructors, and instructors will not be advised about your accommodation needs. AS will then assess your medical situation, develop an accommodation plan with you, and support you in requesting accommodation for your course work. Remember that the process of accommodation is private: AS will not share details of your condition with any instructor, and your instructors will not reveal that you are registered with AS.

**Academic Success Centre:** “Academic Success professional staff are dedicated to helping you reach your highest learning potential. Every student is capable of achieving academic excellence, but not all learning takes place in the classroom, and not everyone learns in the same way. Your life is more complex than your academic responsibilities, so [they] look at the whole picture and take an individualized approach to supporting you. [They] know there is no ‘right’ way to get through university, and [they] welcome the opportunity to explore strategies that might help you find greater balance between life and learning.” Check out their study spaces, attend a workshop

or meet with a learning strategist here: <https://www.studentlife.utoronto.ca/asc/about-us>

**Mental health, well-being:** As a student, you may experience challenges that can interfere with learning, such as strained relationships, increased anxiety, substance use, feeling down, difficulty concentrating and/or lack of motivation, financial concerns, family worries, or general anxiety about the state of the world. These factors may affect your academic performance and/or reduce your ability to participate fully in daily activities. All of us benefit from support and guidance during times of struggle; there is no shame in needing help or in asking for help. There are many helpful resources available through Student Life ([www.studentlife.utoronto.ca/feeling-distressed](http://www.studentlife.utoronto.ca/feeling-distressed)) and Counselling and Psychological Services (<http://www.caps.utoronto.ca/main.htm>). An important part of the University experience is learning how and when to ask for help. Please take the time to inform yourself of available resources and do not hesitate to seek assistance from your Teaching Assistant or from me to help learn what supports are available. We are here to support you!

**Writing:** As a student here at the University of Toronto, you are expected to write well. The university provides its students with a number of resources to help them achieve this. For more information on campus writing centres and writing courses, please visit <http://www.writing.utoronto.ca/>.

**English Language Resources:** For anyone who would like to advance their understanding and command of English, there are many supports available at UofT: <https://www.artsci.utoronto.ca/current/academic-advising-and-support/english-language-learning>

### Tips for Success

Everyone has different learning preferences and strategies that work best for them. However, there are a few things that everyone can do to ensure they receive the best possible grade in this course:

1. “Attend” lecture weekly (aka come in person, watch the live stream, or recordings).  
When watching, avoid other distractions. Put your phone away, close other windows on your computer, and take notes.
2. After watching lectures review the lecture slides. Compare these to your notes.  
Reorganizing and combining this information can help you to consolidate and remember it.
3. Do all the readings. Required readings will be covered on the assessments. Read and take notes. Most students find it helpful to read more than once.
4. Study hard. Review your notes, make flashcards, form a study group.
5. Come to office hours! The instructor and the TA are here to help you. If you have any concerns or questions regarding the course or material, please email us with questions or to set up an appointment!

## Required Readings & Podcasts

### Lecture 1: Introduction to the Course & Organizational Behaviour

- Syllabus
- Kniffin, K. M., Narayanan, J., Anseel, F., Antonakis, J., Ashford, S. P., Bakker, A. B., ... & Vugt, M. V. (2021). COVID-19 and the workplace: Implications, issues, and insights for future research and action. *American Psychologist*, 76(1), 63-77.
- Grant (2022) The Dos & Don'ts of Returning to the Office. [Audio Podcast Episode]. In *WorkLife*. TED.  
[https://www.ted.com/talks/worklife\\_with\\_adam\\_grant\\_the\\_dos\\_and\\_don\\_ts\\_of\\_returning\\_to\\_the\\_office?referrer=playlist-worklife\\_with\\_adam\\_grant\\_season\\_5](https://www.ted.com/talks/worklife_with_adam_grant_the_dos_and_don_ts_of_returning_to_the_office?referrer=playlist-worklife_with_adam_grant_season_5)

### Lecture 2: Organizational Structure & Culture

- Schein (1986). What you need to know about organizational culture. *Training & Development Journal*, 40, 30-33.
- Schneider, B., González-Romá, V., Ostroff, C., & West, M. A. (2017). Organizational climate and culture: Reflections on the history of the constructs in JAP, *Journal of Applied Psychology*, 102, 3, 468-482.
- Spicer, A. (2020). Organizational Culture and COVID-19. *Journal of Management Studies*, 57(8), 1737-1740.
- Grant, A. (2022) The 4 Deadly Sins of Work Culture. In *WorkLife*. TED.
